## FULL STACK PROJECT

### SERVICES STORES PROJECT

[Live Link](#)   [ClientRepo](#)  
[Servire](#)

A dynamic service store web app where users can explore various services, post new ones, update or delete their own services, and leave reviews. Built with React and Firebase Authentication.

Passionate Junior Front-End Developer with a focus on building responsive and dynamic web applications using the MERN stack. Seeking a full-time role to apply my skills, grow professionally, and contribute to innovative development teams.

## EDUCATION

### SYLHET INTERNATIONAL UNIVERSITY

B.Sc.Engg. in Computer Science and Technology January 2025 – Present

### SYLHET POLYTECHNIC INSTITUTE

Computer Science and Technology 2020 – 2024

## PROJECTS

### bakery--website

🔗 [Source Code](#)   [Live Link:](#)

A clean and responsive website built using HTML, CSS, and basic JavaScript.

The project showcases a modern bakery with visually appealing sections, interactive navigation, and smooth scrolling effects. Designed to highlight products, special offers, and customer-friendly layouts for an engaging browsing experience.

### FULL Stack Project

**recipe stores**   [ServerRepo](#)   [ClientRepo](#)   [Live](#)

A service store app where users can manage services and share reviews.

Developed using React and Firebase Auth.
